Hi Jody: we are well and I hope your family is too.

A similar request came down through Darcy today. I can send you what I sent her if you would like?

Douglas

Hi Douglas, Valois,

I am preparing a prep packet for Greg's call with SD Governor Noem next week and I wanted to check with you on whether EPA finalized the aquifer exemptions for the Dewey Burdock project. This is how the bullet reads now:

- Dewey Burdock Uranium In-Situ Recovery Project in Edgemont, SD: EPA expects to finalize UIC Class III and Class V and associated aquifer exemptions for the project in 2020. South Dakota will need to complete work on a large-scale mining permit before the project can begin.

Thanks for any help you can provide. Hope you're doing well!

Best,

Jody
